VIDEO DEPOSITION OF STEVEN BURMEISTER
March 15, 2013

REPORTED BY: GINA V. CARBONE, CSR NO. 8249, RPR, CCRR

10:40:26 1 Q. [REDACTED] of -- of what?

10:40:30 2 A. I was referring to number of RSUs.

10:40:42 3 Q. So on this chart, as I read it, it says: [REDACTED]

10:40:48 4 [REDACTED]

10:40:53 5 [REDACTED]

10:40:57 6 [REDACTED]?

10:41:01 7 A. Yes.

10:41:02 8 Q. But an -- but an actual grant could be above

10:41:07 9 [REDACTED] or below [REDACTED] depending on that vice president's

10:41:13 10 performance or depending on a vice president's

10:41:16 11 performance?

10:41:17 12 A. It could be based on a number of factors,

10:41:24 13 performance being the main, probably, decision factor we

10:41:28 14 like managers to consider.

10:41:36 15 Q. What are the -- [REDACTED]

10:41:39 16 [REDACTED] -- there are two columns here. There is a

10:41:41 17 column for [REDACTED] and a column for

10:41:45 18 [REDACTED] and various numbers listed under

10:41:47 19 them. Are those -- are those numbers minimums,

10:41:57 20 maximums? Are they -- well, are they minimums?

10:42:09 21 MR. RILEY: Object to the form.

10:42:09 22 MS. LEEBOVE: Q. For instance, if you

10:42:10 23 found -- if a vice president was determined to be an

10:42:13 24 [REDACTED], would he or she necessarily

10:42:18 25 receive [REDACTED]?

10:42:24 1 A. No. What -- what this chart illustrates is
10:42:28 2 what would be a reference for leaders to -- it's a
10:42:34 3 reference point to say that a [REDACTED]
10:42:37 4 [REDACTED], but based on your assessment
10:42:41 5 of their performance, a [REDACTED] --
10:42:45 6 [REDACTED]
10:42:50 7 [REDACTED].

10:42:58 8 Q. Okay. So these -- this chart is -- all of
10:43:01 9 these numbers are purely reference points as opposed to
10:43:08 10 guidelines?

10:43:11 11 A. I consider a reference point and a guideline to
10:43:15 12 be the same.

10:43:18 13 Q. Okay. To the extent an employee receives an
10:43:32 14 annual grant, is there any formula by which the annual
10:43:37 15 grant is determined?

10:43:42 16 A. I don't believe there is a formula. It's the
10:43:46 17 leader -- the manager's assessment of their performance
10:43:49 18 and what would be appropriate for that individual
10:43:52 19 contributor --

10:43:53 20 Q. Okay.

10:43:53 21 A. -- or manager.

10:44:03 22 Q. If you turn to the page that's -- I want to say
10:44:07 23 it must be 7, if we were just looking at 5. At the
10:44:10 24 bottom it says 231APPLE100679. Can you tell me what is
10:44:27 25 reflected on this page of your -- of the materials you

10:44:30 1 prepared for the compensation committee on August 5th,
10:44:32 2 2009?

10:44:38 3 A. It is a "Proposed FY10 Merit Increase Program,"
10:44:43 4 which we use to determine an overall budget that the
10:44:48 5 company can then use to provide employees with merit
10:44:53 6 increases.

10:45:00 7 Q. The very last bullet -- it's actually a dash
10:45:07 8 rather than a bullet, states, "Executive Management
10:45:09 9 supports this recommendation and believes it is
10:45:11 10 important to recognize and reward all employees for
10:45:13 11 their hard work and contribution to the Company's
10:45:17 12 overall success."

10:45:18 13 Do you see that?

10:45:19 14 A. Yes.

10:45:19 15 Q. [REDACTED]
10:45:23 16 [REDACTED]?

10:45:28 17 A. [REDACTED].

10:45:33 18 Q. How did -- why not?

10:45:39 19 A. The decision to give your -- one of your
10:45:45 20 employees a merit increase is based on a number of
10:45:48 21 factors that a leader might consider, performance being
10:45:51 22 one. And if an individual wasn't performing well, he or
10:45:57 23 she may not warrant a merit increase.

10:46:08 24 Q. Has there ever been an instance in your
10:46:10 25 experience at Apple where all U.S. employees' salaries

10:58:00 1 and grades."

10:58:05 2 Is that still true today?

10:58:18 3 A. Yes. We -- and by "salary ranges," I mean the
10:58:22 4 reference points for salaries by job and level.

10:58:38 5 Q. Do your salary ranges or reference points --
10:58:46 6 does the salary range consist of a minimum base salary,
10:58:50 7 a midpoint, and a maximum?

10:58:52 8 A. Yes.

10:58:54 9 MR. RILEY: Object to the form.

10:59:01 10 MS. LEEBOVE: Q. In response to Apple's
10:59:04 11 analysis of market data on an annual basis, do the
10:59:15 12 salary range minimums increase on an annual basis?

10:59:23 13 MR. RILEY: Object to the form.

10:59:24 14 THE WITNESS: Can -- can you repeat the
10:59:48 15 question, please.

10:59:55 16 MS. LEEBOVE: Q. Let me see if I can ask
10:59:58 17 it differently.

11:00:03 18 Is it fair to say that Apple uses market data
11:00:05 19 to set minimum, midpoint, and maximum salaries for job
11:00:11 20 levels and grades?

11:00:13 21 MR. RILEY: Object to the form.

11:00:40 22 THE WITNESS: Apple -- it's -- by "Apple," your
11:00:43 23 statement Apple set salaries is very broad. Each
11:00:47 24 individual manager determines the compensation -- total
11:00:52 25 compensation based bonus, and stock award that an

11:00:59 1 individual has earned. But by -- your statement Apple
11:01:07 2 used survey data to set Apple salaries, no. It's a very
11:01:15 3 indirect relationship.

11:01:17 4 MS. LEEBOVE: Q. Well, does Apple use
11:01:20 5 market data to set salary ranges?

11:01:27 6 A. That's a -- it's a ref- -- we use survey data
11:01:31 7 as a reference. It's one of the inputs that I consider,
11:01:35 8 my group considers when we establish market competitive
11:01:43 9 ranges.

11:01:46 10 Q. Well, I'm just -- I'm actually reading a
11:01:48 11 statement that you wrote that says, "Apple also uses the
11:01:52 12 market data described above to set salary ranges for job
11:01:56 13 levels and grades."

11:01:57 14 So is that not true? Apple does not use market
11:02:05 15 data to set salary ranges for job levels and grades?

11:02:08 16 A. No, it is true. That is one of the sources of
11:02:13 17 information that my group uses to determine what salary
11:02:19 18 ranges, references are appropriate for Apple. But it is
11:02:24 19 not the sole -- it's not the sole source.

11:02:27 20 Q. Okay. That's fair. I understand.

11:02:49 21 In paragraph 7, the first sentence of it says,
11:02:53 22 "Once the budgets are set, Apple's managers determine
11:02:59 23 promotions and distribute salaries, bonuses, and stock
11:03:02 24 awards among the individual employees they supervise on
11:03:04 25 the basis of performance reviews and other factors, such

11:03:08 1 as an employee's skill set and importance to the overall
11:03:11 2 success of the group."

11:03:21 3 Are individual employees' salaries, base
11:03:26 4 salaries, determined by reference to the salary range
11:03:31 5 associated with their positions?

11:03:36 6 MR. RILEY: Object to the form.

11:03:47 7 THE WITNESS: Are you asking -- I'm not sure,
11:03:51 8 yeah, what you're asking in that question.

11:03:56 9 MS. LEEBOVE: Q. Do Apple's managers
11:03:58 10 distribute salaries with reference to the salary
11:04:04 11 ranges for their employees' positions?

11:04:07 12 MR. RILEY: Object to the form.

11:04:11 13 THE WITNESS: Salaries are awarded based on the
11:04:15 14 individual's performance and the other factors as I have
11:04:18 15 listed. Our salary ranges are reference points.
11:04:22 16 They're -- they're not hard minimums or hard maximums.
11:04:30 17 Those are purely a reference point. But salaries are
11:04:34 18 truly determined based on an individual one-by-one
11:04:41 19 assessment of the individual.

11:04:46 20 MS. LEEBOVE: Q. Do you know how many
11:04:47 21 employees make less than the minimum salary range
11:04:54 22 of -- the minimum of the salary range set for their
11:04:56 23 position?

11:04:57 24 MR. RILEY: Object to the form.

11:05:02 25 THE WITNESS: I don't know the number, but

11:06:14 1 minimum reference point of their salary range for
11:06:16 2 their position?

11:06:17 3 MR. RILEY: Object to the form.

11:06:18 4 THE WITNESS: Again, I'd have to look at the
11:06:20 5 data to be able to answer that.

11:06:29 6 MS. LEEBOVE: Q. Do you know what
11:06:30 7 proportion of Apple employees make more than the
11:06:32 8 maximum reference point for their salary range?

11:06:37 9 A. I would have to look at the data. It would be
11:06:39 10 the same kind of evaluation as looking at the minimum.

11:06:47 11 Q. What purpose do the salary ranges serve if
11:06:51 12 managers don't have to adhere to them?

11:06:54 13 A. It's a manager -- they're a manager tool,
11:06:57 14 reference points to determine how you are paying your
11:07:02 15 employee relative to the market. And it's purely a
11:07:08 16 reference point. The individual -- the individual could
11:07:13 17 be at minimum, below minimum, at maximum, above maximum
11:07:21 18 based on what he or she brings to the table and -- and
11:07:23 19 their performance, the importance of their group in the
11:07:27 20 overall company goals.

11:07:42 21 Q. Skipping further down into paragraph 7 at lines
11:07:46 22 15 to 17, you wrote, [REDACTED]

11:07:52 23 [REDACTED]

11:07:56 24 [REDACTED]."

11:07:58 25 [REDACTED]

11:08:03 1 [REDACTED] ?

11:08:15 2 A. [REDACTED]

11:08:18 3 [REDACTED]

11:08:21 4 [REDACTED] [REDACTED]

11:08:28 5 [REDACTED] [REDACTED]

11:08:34 6 [REDACTED]

11:08:37 7 [REDACTED]

11:08:42 8 [REDACTED] [REDACTED]

11:08:48 9 [REDACTED]

11:08:51 10 [REDACTED]

11:08:54 11 [REDACTED]

11:09:06 12 Q. Has it ever been your experience that a manager
11:09:08 13 has given their -- their entire salary increase budget
11:09:18 14 for a particular year over to just one employee?

11:09:22 15 A. No.

11:09:41 16 Q. Do managers ever, in your experience, leave
11:09:43 17 money on the table? In other words, have merit increase
11:09:49 18 funds allotted to them that they don't distribute to
11:09:52 19 their employees?

11:09:54 20 A. Yes.

11:09:55 21 Q. Does that happen frequently?

11:10:01 22 A. It depends on the group and the leadership. It
11:10:06 23 just depends by area.

11:10:19 24 Q. Does paragraph 10 of your declaration, I'm
11:10:23 25 assuming that refers to the process you were talking

11:20:55 1 could have additional criteria based on the role he or
11:20:59 2 she is trying to fill.

11:21:02 3 Q. Such as? What are some examples of additional
11:21:07 4 criteria that might help to -- a manager to determine an
11:21:10 5 employee's starting salary besides the four reference
11:21:13 6 points that are listed here?

11:21:15 7 A. You're looking at, is it a -- you know, it just
11:21:29 8 would depend by the manager. They would have their own
11:21:33 9 criteria that they would be looking at, what is
11:21:35 10 important to them.

11:21:43 11 Q. Have you ever heard of the term "internal
11:21:45 12 equity"?

11:21:49 13 A. I've -- in a compensation speak language, we
11:21:54 14 use the term "internal equity."

11:21:57 15 Q. What does it -- what does internal equity mean
11:21:59 16 to you in your compensation speak language?

11:22:05 17 A. Internal equity means, to me, that what you're
11:22:11 18 looking at, if you're looking at compensation, that it's
11:22:15 19 fair based on the individual's contribution relative to
11:22:21 20 the other employees in your group, or across your
11:22:26 21 organization, whatever your scope of management is.

11:22:35 22 Q. Is there an internal equity component to
11:22:40 23 determining starting salaries at Apple?

11:22:54 24 A. It -- internal equity plays into a few, if not
11:22:59 25 all, of these bullets for managers to consider when

11:23:04 1 looking at a candidate to determine a new starting
11:23:07 2 salary.

11:23:12 3 Q. Does internal equity factor into Apple's
11:23:25 4 compensation -- or does internal equity factor into a
11:23:29 5 salary adjustment made upon a promotion?

11:23:36 6 MR. RILEY: Object to the form.

11:23:42 7 THE WITNESS: Are you asking if a manager
11:23:44 8 considers --

11:23:47 9 MS. LEEBOVE: Q. Well, I guess I'm asking
11:23:49 10 whether internal equity is a factor at Apple in
11:23:56 11 determining promotional increases.

11:23:59 12 MR. RILEY: Object to the form.

11:24:09 13 THE WITNESS: At Apple, each manager has the
11:24:11 14 latitude to determine what is appropriate to pay an
11:24:15 15 individual -- or to -- for promotional increase.
11:24:22 16 Internal equity may or may not factor into their
11:24:27 17 ultimate decision.

11:24:39 18 MS. LEEBOVE: Q. What does it mean here --
11:24:41 19 and I'm looking at page 4, starting with "[REDACTED]
11:24:46 20 [REDACTED], " and
11:24:50 21 then I'm skipping down to the second bullet point,
11:24:53 22 "[REDACTED]
11:24:57 23 [REDACTED]
11:24:59 24 [REDACTED]."

11:25:01 25 What does that mean?

11:32:38 1 THE WITNESS: Are you asking if an employee in
11:32:39 2 the same job, same level, same geography -- are what?

11:32:53 3 MS. LEEBOVE: Q. Should be paid within the
11:32:53 4 same salary range.

11:32:55 5 MR. RILEY: Object to the form.

11:33:01 6 THE WITNESS: No, because our salary ranges are
11:33:04 7 reference points, and there could be reasons why an
11:33:06 8 individual is paid below the minimum or above the
11:33:12 9 maximum or within the first quartile and in the fourth
11:33:17 10 quartile. So the salary range is a reference for both,
11:33:22 11 but I wouldn't say that employees would ever necessarily
11:33:28 12 be tied to a strict range because we don't have a strict
11:33:35 13 range.

11:33:43 14 MS. LEEBOVE: Q. How do you determine
11:33:44 15 whether employees are in positions of equivalent
11:33:46 16 value for purposes of administering base salaries at
11:33:52 17 Apple?

11:33:54 18 MR. RILEY: Object to the form.

11:34:02 19 THE WITNESS: I don't determine employee --
11:34:07 20 where employees are assigned jobs and levels. Managers
11:34:11 21 do.

11:34:13 22 MS. LEEBOVE: Q. How do you -- Kay Bond
11:34:33 23 who works for you, she's a senior compensation
11:34:36 24 manager; is that right?

11:34:37 25 A. Yes.

01:55:16 1 Q. And then in the grouping of columns underneath
01:55:19 2 the heading of "Base Salary," what do those headers and
01:55:27 3 numbers in that portion of the chart refer to?

01:55:35 4 A. First column, "Apple Actual Average" is an
01:55:42 5 overall average of the employees' base salaries against
01:55:52 6 the -- well, the first column is purely the actual --
01:55:55 7 Apple actual average salaries within each line of
01:56:00 8 business.

01:56:04 9 The second column, "SRP," means -- it's an
01:56:08 10 acronym for salary range position. Another way of
01:56:13 11 looking at it, [REDACTED]
01:56:18 12 [REDACTED]. So it's be -- so it's -- that SRP percentage
01:56:25 13 is the [REDACTED]

01:56:31 14 [REDACTED].
01:56:35 15 [REDACTED]
01:56:39 16 [REDACTED].
01:56:45 17 [REDACTED]
01:56:51 18 [REDACTED] -- [REDACTED]
01:56:56 19 [REDACTED] [REDACTED]
01:57:01 20 [REDACTED] [REDACTED]
01:57:08 21 [REDACTED].

01:57:10 22 Q. And from where is this -- is the [REDACTED]
01:57:14 23 derived?

01:57:15 24 A. We get -- that's [REDACTED]
01:57:17 25 [REDACTED].

03:02:35 1 MS. LEEBOVE: Q. Well, if there's a
03:02:37 2 salary -- if a -- if a manager has a group of
03:02:42 3 employees and pays each of his employees greater or
03:02:52 4 her employees greater than the maximum of their
03:02:58 5 respective salary ranges, does that create any sort
03:03:02 6 of compression problem around those salary ranges?

03:03:07 7 A. I don't see where there would be a compression
03:03:10 8 issue there.

03:03:11 9 Q. Okay. Is there any sort of issue that that
03:03:13 10 would create in terms of a compensation structure?

03:03:24 11 MR. RILEY: Objection to the form.

03:03:27 12 THE WITNESS: Issue to whom?

03:03:30 13 MS. LEEBOVE: Q. To Apple. Would it be
03:03:32 14 desirable to Apple if employees were paid higher
03:03:41 15 than the maximum of their -- of the salary ranges
03:03:47 16 that apply to their jobs?

03:03:53 17 A. I don't think it would be a problem at all if
03:03:55 18 it were appropriate and the managers could afford it in
03:04:03 19 their budget.

03:04:04 20 Q. Would there be a salary structure at all if
03:04:06 21 employees were paid outside of their salary ranges?

03:04:11 22 A. Yes.

03:04:13 23 Q. Would it have any effect? Would it be an
03:04:16 24 effective salary structure if nobody abided by the
03:04:21 25 salary ranges?

03:04:23 1 A. Salary ranges are not hard rules. They're
03:04:26 2 reference points. So I would still always want to have
03:04:31 3 that reference point to determine how I'm paying my
03:04:34 4 individuals individually and in aggregate.

03:04:51 5 Q. I guess what I'm trying to understand is that
03:04:54 6 if managers don't set salaries around those reference
03:05:05 7 points, what's the point of doing all of this work to
03:05:09 8 determine what the reference points are if they don't
03:05:14 9 matter in terms of setting individual employees'
03:05:21 10 salaries?

03:05:22 11 MR. RILEY: Objection to the form.

03:05:23 12 THE WITNESS: That sounds like multiple
03:05:24 13 questions here or a statement.

03:05:29 14 MS. LEEBOVE: Q. If the reference points
03:05:32 15 don't matter in terms of setting individual's
03:05:38 16 salaries -- well, is your testimony that the
03:05:40 17 reference -- that reference points don't matter in
03:05:44 18 setting individual salaries?

03:05:47 19 A. No.

03:05:50 20 Q. Is it your testimony that managers are free to
03:05:53 21 ignore those reference points in setting their
03:05:56 22 employees' salaries?

03:06:02 23 A. Free to ignore. No, it's -- it's a reference
03:06:04 24 point. It should be one factor in their decision-making
03:06:07 25 process of what is an appropriate salary based on --

03:06:09 1 based on the market. But then they have to also balance
03:06:14 2 the importance of the role, the individual, their
03:06:17 3 success, track record, education, experience.

03:06:26 4 Q. And those things -- the role, the individual,
03:06:29 5 their success, their track record, their education, and
03:06:32 6 their experience -- is it your understanding that those
03:06:36 7 factors factor into the base salary determination for a
03:06:41 8 particular employee?

03:06:44 9 A. Every manager should and does consider many
03:06:50 10 things about the individual and of the compensation --
03:06:57 11 our compensation program to determine where the
03:06:59 12 appropriate salary would be for this individual.

03:07:12 13 Q. What do you understand to be the role of the --
03:07:13 14 of a base salary in Apple's compensation structure?

03:07:23 15 A. I'm trying to understand what you mean by "the
03:07:26 16 role of a base salary."

03:07:28 17 Q. Well, what's the purpose of paying an employee
03:07:30 18 a base salary?

03:07:34 19 A. In the 30 years I've been doing this, you
03:07:36 20 really have three basic levers of compensation: base
03:07:42 21 salary, bonus and stock. And not all are used with
03:07:46 22 every job and in every individual. So a base salary,
03:07:51 23 it's just a very common practice. And every -- most all
03:07:58 24 companies have base salary programs.

03:08:05 25 Q. Would you agree with the statement that base

04:21:05 1 MR. RILEY: Objection to the form.

04:21:18 2 THE WITNESS: Everyone at Apple is basically a
04:21:21 3 high performer just to survive, so anyone receiving a
04:21:32 4 compensation adjustment would -- would bring some value
04:21:36 5 to the organization.

04:21:50 6 MS. LEEBOVE: Q. Do you know which, if
04:21:51 7 any, surveys Apple participates in, which salary
04:21:57 8 surveys?

04:21:57 9 A. [REDACTED]
04:22:01 10 [REDACTED]
04:22:13 11 [REDACTED]
04:22:18 12 [REDACTED]
04:22:22 13 [REDACTED]
04:22:25 14 [REDACTED]
04:22:33 15 [REDACTED]
04:22:37 16 [REDACTED]

04:22:45 17 Q. I see. I think.

04:22:47 18 Have you ever requested custom salary survey
04:22:51 19 data from Radford?

04:22:56 20 A. [REDACTED].

04:23:00 21 Q. [REDACTED]
04:23:04 22 [REDACTED]?

04:23:12 23 A. [REDACTED]
04:23:15 24 [REDACTED]
04:23:19 25 [REDACTED]

04:23:23 1 [REDACTED]

04:23:31 2 [REDACTED]

04:23:36 3 [REDACTED].

04:23:37 4 Q. So you might ask for a [REDACTED]

04:23:40 5 [REDACTED]

04:23:43 6 [REDACTED]

04:23:46 7 [REDACTED]?

04:23:53 8 MR. RILEY: Object to the form.

04:23:55 9 THE WITNESS: Peer companies are found in the

04:23:57 10 proxy and we use that as a guide. [REDACTED]

04:24:04 11 [REDACTED] --

04:24:12 12 [REDACTED].

04:24:21 13 MS. LEEBOVE: Q. Do you know whether Apple

04:24:22 14 has ever considered increasing compensation

04:24:26 15 company-wide to forestall defection of employees?

04:24:33 16 A. Not to my knowledge.

04:24:49 17 Q. What, if anything, does Apple do to ensure

04:24:53 18 consistency in compensation among employees whose jobs

04:24:59 19 fall into the same salary range structure? Let me back

04:25:08 20 up for a moment.

04:25:09 21 What, if anything, does Apple do to ensure

04:25:11 22 consistency in compensation among employees who fall --

04:25:13 23 whose jobs fall under the same salary range?

04:25:18 24 MR. RILEY: Object to the form.

04:25:30 25 THE WITNESS: I would say that Apple, we don't

04:25:32 1 try to control consistency, that we look at the
04:25:36 2 individual's merit, scope of responsibility,
04:25:40 3 achievements, background, and they're always individual
04:25:45 4 decisions with market reference just being one
04:25:49 5 additional factor to consider.

04:25:56 6 MS. LEEBOVE: Q. Do you think that leaves
04:25:59 7 Apple vulnerable to discrimination claims if there
04:26:03 8 isn't consistency or formality in determining what
04:26:09 9 an employee's salary will be?

04:26:20 10 MR. RILEY: Object to the form.

04:26:21 11 THE WITNESS: Not sure what could --

04:26:22 12 MS. LEEBOVE: Q. Well --

04:26:22 13 A. -- prompt a discrimination claim.

04:26:24 14 Q. Sorry?

04:26:24 15 A. I'm not sure what could prompt a discrimination
04:26:26 16 claim.

04:26:27 17 Q. For instance, if there is a female software
04:26:32 18 engineer, level -- let me -- would that be an [REDACTED]? A
04:26:41 19 software engineer, would that be an [REDACTED] job?

04:26:43 20 A. Yes.

04:26:43 21 Q. Okay. So if we have a female software engineer
04:26:46 22 [REDACTED] and a male software engineer [REDACTED], if all things
04:26:55 23 being equal, does Apple do anything, let's say, to
04:26:58 24 ensure that women and men who hold the same jobs are
04:27:04 25 compensated alike in order to prevent potentially a
